Giving Back to the Community

Supporting and Sustaining Jobs

Overall, CVS Health supported 93,273 jobs in Illinois in FY24 (16,237 direct employees, 45,578 indirect and 31,458 induced).

Methodology

The study is a snapshot of economic impact as of December 31, 2024, unless otherwise noted. Data used to complete the economic analysis was provided by CVS Health. Data supplied included operating expenditures, capital spending, pay and benefits, direct taxes paid and total employees. The colleague data used in the analysis of the report represents the sum total of all colleagues who were in the state at any time in 2024. Average number of CVS Health colleagues reflects a point-in-time estimate in 2024. Primary and secondary data was used to complete the input-output models in IMPLAN. Additional jobs include indirect employment created as a result of CVS Health's economic impact and induced employment as a result of household spending by CVS Health employees and employees of vendors. The CVS Health colleague and location data is as of January 1, 2025. Patient counts are not unique across mail, retail and specialty pharmacy. Numbers in this report are subject to rounding.
