CVSHealth.com: Cookies Inventory

STRICTLY NECESSARY COOKIES

These cookies are necessary for the website to function and cannot be switched off in our systems. They are usually only set in response to actions made by you which amount to a request for services, such as setting your privacy preferences, logging in or filling in forms. You can set your browser to block or alert you about these cookies, but some parts of the site will not then work. These cookies do not store any personally identifiable information (personal data.) As mentioned, we are not required to ask you for your consent before using these cookies, as these are critical for the functioning of the website.

FUNCTIONAL COOKIES

- **Definition**: Small data files stored on your device that remember choices like language, region, text size, or login details.
- **Purpose**: They deliver a smoother, more personalized browsing experience without tracking your activity across external websites.
- **Difference from Essential**: Unlike strictly necessary cookies that make a core service work (such as a basic shopping cart checkout), functional cookies enhance features but are not strictly vital for basic site loading.

EU Regulation Requirements

- **Governing Laws**: Regulated under the ePrivacy Directive (the "EU Cookie Law") and the General Data Protection Regulation (GDPR.)
- **Consent Rules**: Because they are non-essential (not strictly required just to display the page a user requested), EU regulations generally require **prior, explicit, and active opt-in consent** before these cookies can be dropped on a user's device in Europe.

Status	Cookie Name	Jobs: Category	CVS Health: Provider Group	Purpose / Description
CVS Health only	_crowdcontrol_session_key	Functional	Form Related Cookies	This domain is owned by Bugcrowd which provides a multisolution SaaS platform for security testing and vulnerability insights, as well as managing a community of security researchers for bug bounty programs.

PERFORMANCE COOKIES

Performance Cookies are cookies and similar technologies that collect information about how users interact with a website or application, including usage statistics, traffic patterns, and system performance data. The information is used to analyze, improve, and optimize the performance, functionality, and user experience of the CVSHealth.com website. We use this information to analyze and improve the performance and usability of our website.

As a result, they **typically require prior consent** under Article 5(3) of the (European) ePrivacy Directive before being placed on a user's device and this consent is consistently and explicitly requested via the Cookie banner on the CVSHealth.com landing page/ home page. These cookies are only ever deployed only with your consent where required by applicable law.

Status	Cookie Name	Jobs: Category	CVS Health: Provider Group	Purpose / Description
